

COVID-19: Industry Contingency and Resilience

An industry development initiative brought to you by Ipswich City Council

Challenges,
Collaboration
and Tactics
to Build
Resilience

WEBINAR 5: INNOVATION, TECHNOLOGY AND COLLABORATION IN THE DEFENCE SECTOR

Wednesday 30 September 2020, 11.00 AM – 12.30 PM

6-part industry webinar series to promote Ipswich industry ecosystem

Do you have a product, or technology, that would benefit the Defence Sector but don't know who to talk to, or where it would fit?

Or perhaps you have an idea, but you need funding, resources and partners to bring it to life?

In this webinar we will showcase:

- the current opportunities Defence are working on, for both land and aerospace
- how a local business has grown from 1 person to 50 across 4 locations (including the US) through collaborations with the Defence and Aerospace Industries
- different funding options available to you through government
- how universities can partner with you to transform your idea to valuable, exportable intellectual property.

Hear from senior industry leaders followed by an interactive question and answer session.

Learn about opportunities in the industry and ask questions to help grow your business.
